SUMMARY

I'm backend .NET Developer with experience designing, developing, and maintaining robust backend systems using C#, ASP.NET Core, and SQL Server. Adept at building scalable RESTful APIs, integrating third-party services, and optimizing database performance. Proven ability to collaborate effectively with cross-functional teams to deliver high-quality software solutions on time. Skilled in implementing best practices in software development, including clean architecture, SOLID principles, and unit testing. Passionate about continuous learning and staying updated with emerging technologies in the .NET ecosystem.

EDUCATION

The Egyptian E-learning University

07/2026 | Assiut, Egypt

Bachelor's of Computer Science and Information Technology

PROJECTS

Career Path(Job Management System)- Graduation Project

10/2025 – 06/2026

Full Stack .NET Developer

- Awarded an **A+** grade for designing and developing a comprehensive, multi-module job management platform.
- Architected and implemented a scalable backend infrastructure using **C#, ASP.NET Core, and SQL Server**, delivering robust RESTful APIs and adhering to Clean Architecture principles.
- Collaborated on the frontend development using HTML5, CSS3, and JavaScript to ensure a responsive and intuitive user interface.
- Integrated an Artificial Intelligence module to provide advanced smart features and enhance overall system capabilities.
- Utilized Git and GitHub for version control and efficient team collaboration across multiple repository branches (Backend, Frontend, and AI).

QR Code-Based Smart Attendance Management System

09/2025 – 09/2025

Full Stack .NET Developer | Graduation Project — EEIU

- Built full-stack QR attendance system using ASP.NET Core MVC 8, EF Core, and SQL Server with role-based access for Admin, Doctor, and Student.
- Implemented Dynamic QR rotation every 30 seconds via Background Service + SignalR real-time updates with ~85ms latency.
- Added GPS verification (Haversine Formula), Rate Limiting, RBAC, Audit Logging, Excel/PDF export, and automated absence email alerts.
- Deployed as PWA with Dark Mode, In-Browser QR Scanner, and Analytics Dashboard featuring trend charts and weekly heatmaps.

SKILLS

Web Skills

- HTML5
- CSS3
- JavaScript

Soft Skills

- Soft Skills
- Problem-Solving
- Communication Skills
- Teamwork
- Leadership

Programming Languages

- C++
- C
- Java
- C#
- PHP
- SQL Server
